Subject to priorities defined by the Technical Council and the Presidium, the results of the fib’s work in commissions and task groups are published in a continuously numbered series of technical publications called bulletins. The following categories are used:

**Category:**
- Technical report
- State-of-the-art report
- Manual / Guide to good practice / Recommendation
- Model code

**Approval by:**
- Task group and chairpersons of the commission
- Commission
- Technical Council
- General Assembly

Any publication not having met the above requirements will be clearly identified as a preliminary draft.
