

## Approval for this bulletin

Subject to priorities defined by the Technical Council and the Presidium, the results of the *fib*'s work in commissions and task groups are published in a continuously numbered series of technical publications called *bulletins*. The following categories are used:

| Category:  | Approval by:                                  |
|--|---|
| Technical report                                 | Task group and chairpersons of the commission |
| State-of-the-art report                          | Commission                                    |
| Manual / Guide to good practice / Recommendation | Technical Council                             |
| Model code                                       | General Assembly                              |

Any publication not having met the above requirements will be clearly identified as a preliminary draft.

*fib* bulletin 114 was approved as a technical report by the *fib* Commission 2 in 2023.

The *fib* Task Group 2.1 “Serviceability models” includes the following members:

Convener: Jan L. Vitek (Convener and co-ordinating author; Metrostav a.s. and Czech Technical University in Prague, Czech Republic)
