Corrigendum 1

*fib* Bulletin 32: Guidelines for the design of footbridges

Please note the following errors in the text of Bulletin 32, “Guidelines for the design of footbridges”, which was dispatched to *fib* members in December 2005:

**Page 42, Table 5.7:**
In the ninth row of the table, the vertical acceleration for the Ontario Bridge Code ONT83 should read “$0.25 \cdot f_1^{0.78}$” (i.e. delete the square root symbol in the formula).

**Page 121:**
The designers of the Shibuya 21 Bridge should read “R. Umezawa (Engineer), E. Horikoshi + Architect 5 (Architect)”.

The following formatted texts, which can be cut out and pasted over the errors on the above-mentioned pages to correct these errors, are provided for the reader’s convenience:

<table>
<thead>
<tr>
<th>Ontario Bridge Code ONT83</th>
<th>$0.25 \cdot f_1^{0.78}$</th>
<th>$f_1$ = fundamental natural frequency of the bridge</th>
</tr>
</thead>
</table>

**Designer** R. Umezawa (Engineer), E. Horikoshi + Architect 5 (Architect)
