

IWAMISSE 2018

**International Workshop on
Advanced Materials and Innovative
Systems in Structural Engineering:
Seismic Practices**

16 November 2018, Istanbul, Turkey

Scope and Topics:

The workshop covers the topics of advanced materials and innovative systems in structural engineering with a focus on seismic practices as well as other issues related with steel fiber reinforced concrete, anchors/fasteners, precast structures, and recent advances on different types of structural systems such as reinforced concrete, steel and reinforced masonry structures.

The event will provide a platform for exploring the potential national and international cooperation schemes in terms of research and application on the areas covered within the scope of the workshop.
